BIOGRAPHY

THE SELECTOR

Salsa is archive, barrio and dancefloor.

Systems engineer and Latin music researcher, with more than 30 years across radio, festivals, nightclubs and bars in Bogotá. Founder of Mundo Salsero — the city's first salsa lovers association — and since 2020 a virtual radio station and sound lab. Shared the booth with legends and mentored a new generation of selectors in Bogotá.

Curated collection of more than 2,000 vinyls between 12" and 7". From guaguancó to barrio, from mambo to salón, from record to dancefloor. Every set is a timeline connecting barrio guaguancó with New York salsa dura, boogaloo and forgotten Latin folk. From street to dancing history.

Salsa is not nostalgia. It is memory that dances. Each record holds a street, a vacant lot, a night.

"Every song has a street, has a story." — Selector Notes
